WELCOME

Welcome to "Capital Protection Group" a true maverick within the multi-billion industry of debt settlement. For an elite sales professional, the exponential growth of your financial future starts right now!

Let's get right to the point. It will be revealed to you on this website a superior product to sell, the tools and support to maximize your sales and of course a generous commission structure to capture your immediate and sustained attention. All together, these are the key ingredients for both success and profits.

WHAT IS THE DEBT SETTLEMENT INDUSTRY?

As recently as '08, the average unsecured consumer debt per house hold topped over \$20,000! America is swimming in consumer debt of which that is quickly approaching over 3 trillion dollars. Obviously with that amount financially at stake to creditors, it's a high-reward industry for those companies with the skills and techniques able to secure the highest amount of that debt for the creditors.

HOW IS CAPITAL PROTECTION GROUP DIFFERENT?

Make no doubt that the *Capital Protection Group* is an attorney designed and proven system to alleviate as much debt as possible for the consumer. While the government is bailing out the fat-cat banks from Wall-Street, we're in the trenches fighting for the average citizen to get out of debt and get their lives back on track!

WHOSE BEST INTEREST DO THEY HAVE IN MIND?

Traditional debt settlement companies have industry standard averages of consumers paying back 60-70% of their unsecured debt which includes their 15-18% fees. Their program is all about immediately contacting their creditors, putting the on hold, and sending in the money when the consumer finally pays the debt settlement company enough to settle. The unfortunate and unbelievable part of all this is that EVEN traditional settlement programs are far more expensive for most consumers to participate in.

CAPITAL PROTECTION GROUP RIDES IN TO SAVE THE DAY!

However, thank goodness for Capital Protection Group! Now debt settlement is truly affordable to all. Capital Protection Group represents the consumer to negotiate with their best interests in mind NOT the creditors. With the Capital Protection Group's attorney designed program of systemically disputing, verifying, and documenting all of a consumer's debt puts the creditor on their heels in a legal accountability exchange to seemingly make our clients perceived as having little to no ability for the creditor to collect. Then after a 20-24 month extended period of time, we abruptly settle for significantly less than could be imagined and some debt at low as 10%!
